WELCOME TO BRODY CHEMICAL

Brody Chemical began in Salt Lake City, Utah in 1975. Since then, it has grown from a small local company to one that provides superior products and service to over half of the United States. Brody's success is attributed to its commitment to create innovative and highly effective products — manufactured under strict quality control standards, a responsive technical support team, and a professional, well-trained, service-driven sales force. Brody Chemical's comprehensive product line boasts over 600 different formulations of sanitation, institutional, industrial and maintenance chemicals for professional use. Reducing the risks associated with chemical usage and disposal, avoiding depletion of the Earth's natural resources, and enhancing the safety and work environment for clients are core values of Brody Chemical.

LEMON ZEST ■ NEUTRAL CLEANER	10
LIFT STATION MAINTAINER ■ FLOATS ON TOP	10
LIQUID HAND SOAP ■ PLEASANT FRAGRANCE	10
LIQUID LIVE BACTERIA ■ INSTANT ODOR CONTROL	10
MILKSTONE REMOVER ■ DAIRIES AND FOOD PROCESSING	10
OVEN AND GRILL CLEANER (PINK FURY) ■ REMOVES BAKED-ON FOOD	10
OVEN CLEANER AEROSOL ■ HEAVY DUTY FORMULA	11
OVEN CLEANER AGGRESSION ■ HEAVY DUTY OVEN CLEANER	11
RESIDUAL INSECTICIDE AEROSOL ■ CHERRY FRAGRANCE	11
SANITIZING HAND GEL ■ MEETS OSHA STANDARDS	11
SMOKEHOUSE CLEANER ■ HIGH FOAMING LIQUID	11
STAINLESS POLISH AEROSOL ■ LEAVES A BRILLIANT SHINE	11

ACID CLEANER ■ FOOD AND BEVERAGE INDUSTRY

Acid Cleaner is a very concentrated, acid based cleaner and brightener, developed specifically for the food and beverage industry, food processing plants, dairy farms and the bottling industry. Its low-foam characteristics enhance cleaning action when applied by circulation, spray or agitated-soak cleaning methods. USDA approved.

ACID SANITIZER ■ BACTERICIDE AND FUNGICIDE

This product is a synergistic blend of acids providing sanitation in the presence of excessive organic soils. This high-foam product can be applied through Brody's Hydro Foam System or Foam Gun to produce sanitizing foam for external sanitization. Sanitizing with this product on a daily basis leaves equipment clean and free of water spots. USDA approved.

ALL PURPOSE CLEANER ■ VERY CONCENTRATED

This product is a free-rinsing, neutral, non-toxic, all-purpose, synthetic liquid detergent. It is a concentrated, chemically balanced cleaner that first wets the soil by surrounding grease, grime and dirt. Second, it penetrates these soils and breaks them into small particles. Third, grease and oils are emulsified. Finally, soil-suspending ingredients float away dirt and grime, leaving a clean surface.

ALL PURPOSE CLEANER AEROSOL ■ HIGH FOAMING

All Purpose Cleaner Aerosol is a high-foaming, clinging formulation, containing ammonia that instantly attacks and loosens dirt, fingerprints, smudges, oils and greases from most hard surfaces. It is non-abrasive and works especially well on painted surfaces, ceramic tile, porcelain and Formica. It is also excellent for leather, vinyl and plastic surfaces. Use in restaurants and food service operations. USDA approved.

AUTOMATIC SCRUBBER ■ CONTROLLED SUDS CLEANER

This non-butyl, heavy-duty cleaner contains special properties allowing for deep penetrating and emulsifying action. These ingredients suspend debris in solution so it is rinsed away rather than redeposited on cleaned surfaces. Automatic Scrubber dissolves grease and dirt by positive emulsion; oils, dirt and greases are actually emulsified into the water, resulting in more thorough cleaning and no ring-around-the-wash-tank. This product is excellent for use as a general cleaner. USDA approved.

AUTOMATIC SCRUBBER CONCENTRATE ■ (2X6=55)

Automatic Scrubber Concentrate was developed to save money and shipping costs for customers. A 55-gallon drum of Automatic Scrubber contains surfactants, detergents and emulsifiers; it also contains 78% water. By removing this water from the formulation, 12 gallons (2 buckets) of active ingredients remain. These 2 super concentrated buckets, when mixed with 43 gallons of water, make a 55-gallon drum of regular strength Automatic Scrubber, which should then be further diluted up to 64:1.

BACTERIA CONCENTRATE ■ 800 BILLION PER GALLON

Bacteria Concentrate is a multiple, spore-blend concentrate designed for use as a base culture in the formulation of biological based products. Bacteria Concentrate is designed specifically to improve the bioenzymatic liquification and digestion of organic waste. This concentrate promotes the rapid breakdown of organic matter in applications where accelerated enzymatic reactions are desired, such as in drain lines, grease traps and waste degrading applications. Bacteria Concentrate is highly recommended for drain lines and grease trap treatment and maintenance in restaurants and food plants. USDA approved.

BOTTLE WASH ■ HEAVY DUTY LIQUID

Bottle Wash is a liquid, heavy-duty, bottle washing compound that contains water softeners for effective cleaning in hard-water areas. Product rinses easily with water at 125° F. It is non-harmful to paint when used at recommended dilutions. Special wetting agents prevent foam problems. (Machine temperature should be 145° F.) USDA approved.

CAUSTIC CLEANER ■ CONCENTRATED COMPOUND

This product is a concentrated compound that was developed for use in food plants, dairies, poultry processing and bottling facilities as well as other industrial applications requiring a caustic cleaner. Caustic Cleaner is a low-foam detergent that cleans and rinses freely. For use on ferrous metals only. USDA approved.

CHLORINATED POWDER ■ LOW-FOAM DETERGENT

Use Chlorinated Powder in canneries, dairies, bakeries, wineries, breweries, institutional kitchens, restaurants and food processing plants. This concentrated alkali is chlorinated for effective cleaning, stain removal, and deodorizing. For use on ferrous metals only. USDA approved.

CHLORINE SANITIZER ■ DISINFECTS AND SANITIZES

This product is a 12.5% sodium hypochlorite liquid chlorine sanitizer, formulated for disinfecting and sanitizing food processing equipment. This widely used sanitizer is excellent for use in meat processing and packing plants, dairies, poultry and pig farms, etc. Chlorine Sanitizer can be applied through mopping, misting or spraying methods. Use straight or mix with up to 50 parts water for greater economy. USDA approved.

CIRCULATION CLEANER ■ ALKALINE CIP CLEANER

This product is a concentrated, alkaline, CIP cleaner designed for automatic dispensing into circulation CIP systems or single service CIP systems. High-detergency and low-foam enhance cleaning performance and retard the formation of air pockets caused by foam in low velocity areas in circulation systems. This product quickly penetrates and emulsifies fat, grease, and oil residues. USDA approved.

CONVEYOR LUBRICANT ■ CLEANS AND PREVENTS CORROSION

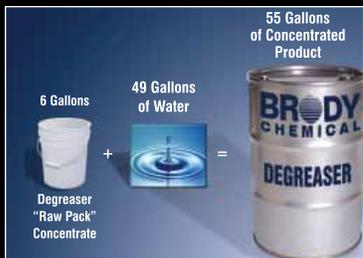

Conveyor Lubricant is a concentrated, high-detergency lubricant for use on conveyor chains and other light-duty industrial applications. It protects bearing surfaces against excessive wear and assures smooth, trouble-free operation. Conveyor Lubricant removes soil buildup, keeping conveyors clean and odor free. It protects metal surfaces against rust and corrosion as it lubricates to reduce chain drag, jumping, and breakage. This product dilutes instantly with water. USDA approved.

DAIRY CLEANER AND SANITIZER ■ MULTIPURPOSE CLEANER

This product is a multipurpose cleaner and sanitizer for the dairy industry. It is a phosphoric acid-based product that removes milkstone and hard water film as it cleans and sanitizes all stainless steel equipment. This product disperses quickly in hot or cold water to form a completely uniform solution. It effectively cleans in water up to 600 ppm of hardness. USDA approved.

DEGREASER (WITH ENZYMES) ■ CONTAINS BIOREMEDIATION ENZYMES

This product is a non-emulsifiable degreaser containing bioremediation enzymes. It cleans by dispersion, breaking the oil down into micro particles so it can be washed away. These micro particles immediately float the oil and debris back to the surface for removal from the wastewater. The enzymes actually consume the greases and oils during the cleaning process and continue to work long after the waste oil and greases are discarded. It is 100% biodegradable, water-soluble and contains no hazardous ingredients. USDA approved.

DEGREASER "RAW PACK" ★ (1X6=55)

This product was developed to save money and shipping costs for customers. A 55-gallon drum of Degreaser (with Enzymes) contains surfactants, emulsifiers, chelating agents, degreasers, wetting agents, and a bioremediation enzyme; it also contains 89% water. By removing this water from the formulation, 6 gallons (1 bucket) of active ingredient remain. This super concentrated bucket, when mixed with 49 gallons of water, make a 55-gallon drum of regular strength Degreaser (with Enzymes), which should then be further diluted up to 10:1. USDA approved.

DISINFECTANT/SANITIZER ■ BACTERICIDE AND VIRUCIDE

This liquid quaternary germicidal is specially designed for restaurants, food processing plants, meat departments, bakeries, hospitals, dairies, bars and institutions where disinfection, sanitization and deodorization are primary concerns. Formulated to disinfect pre-cleaned, inanimate, hard surfaces such as walls, floors, sink tops, tables and chairs. Disinfectant/Sanitizer can be used as a rinse on floors, walls, food, tables, etc. USDA approved.

DRAIN OPENER LIQUID ■ VERY CONCENTRATED LIQUID

This product keeps toilets, urinals, grease traps, septic tanks, cesspools, pipes and drains running free and clean. It is a concentrated liquid, powerful enough to dissolve sanitary napkins, cloth, grease, hair, tea bags, peelings, cigarette filters, cellulose and floor cleaning agents. Drain Opener Liquid contains special inhibitors to protect metal and plastic pipes. Packaged in quarts, 12 per case.

DRAIN OPENER POWDER ■ POWDERED SEWER SOLVENT

This product's combination of chemical and metallic chips reacts with water to create considerable heat and agitation. Readily dissolves greasy deposits, hair, vegetables and other materials containing a high percentage of cellulose that blocks normal water flow in sewer systems, grease traps, septic systems, and industrial drains. Particularly effective for systems in food processing and meat packing plants where accumulation of organic matter tends to clog drainage facilities and produce strong unpleasant odors.

EGG WASH ■ LOW FOAMING DETERGENT

Egg Wash is a low foaming detergent, formulated to clean even the dirtiest eggs in all types of water. This compound contains excellent wetting and penetrating agents and is free rinsing and non-toxic. It is very concentrated — use only 1/4 ounce per gallon of water in wash tanks. USDA approved.

ENZYME DIGESTANT ■ ELIMINATES WASTE ODORS

This product uses the powerful waste digesting abilities of special multi-cultured bacteria strains and natural enzymes. The natural enzymes quickly break down proteins, starch, carbohydrates, animal and vegetable fats and oils, and paper for the most effective waste digestion. Regular use of Enzyme Digestant establishes thriving colonies of these waste-digesting bacteria, providing uninterrupted cleaning action in all drains, plumbing and septic systems. It unclogs drains for full flow and reduced odors. USDA approved.

FAT FRYER CLEANER ■ EMULSIFIES BAKED-ON GREASE

This product breaks down food residues, while it emulsifies heavy, baked-on grease and oil deposits. It quickly removes even weeks of heavy buildup of grease and oil. Baked on food and grease in deep fat fryers can contaminate expensive cooking oils. Use Fat Fryer Cleaner to cut down labor costs of hand scrubbing and to extend the life of cooking oils. USDA approved.

FOAMING ACID CLEANER ■ FOOD PROCESSING

This product is a complete, self-foaming acid that rapidly removes mineral films on food processing equipment. It removes corrosion, beerstone, scale, milkstone and other hard deposits from vats, tanks, mixers, kettles, coolers, fillers, etc. This product is safe to use on stainless steel and glass. With extended use, it will attack zinc, copper, and galvanized coating on steel. USDA approved.

FOAMING CAUSTIC CLEANER ■ HIGH FOAMING ALKALINE LIQUID

This concentrated alkali was developed for use in food plants, dairies, poultry processing and bottling facilities as well as for any industrial application requiring a caustic cleaner. Contains Sodium Hydroxide for heavy-duty cleaning. USDA approved.

FOAMING CLEANER ■ CHLORINATED/ALKALINE LIQUID

Foaming Cleaner is a chlorinated, alkaline liquid cleaner developed specifically to clean protein food soils, blood and greases found in meat, poultry and food processing plants. This product is a very high foaming cleaner and degreaser designed for application through Brody Chemical's Hydro-Foam System. USDA approved.

FOOD GRADE CLEANER AEROSOL ■ POWERFUL DEGREASER

Food Grade Cleaner is a powerful degreasing foam that clings to vertical surfaces, making cleanup safe, effective and efficient. Unlike conventional liquid cleaners and degreasers, this unique formula remains on surfaces until wiped away. Safe for use on Plexiglass, Formica, aluminum, stainless steel, painted metals, plastics, acrylics and chrome. This product removes cooking oils, greases, sugar, starch and protein residues. Eliminates oxidation odors and cleans all types of food equipment. USDA approved.

FOOD GRADE DEFOAMER ■ KOSHER ACCEPTANCE

This product is a diluteable, 20-percent-active, foam-inhibiting silicone designed to control foam in aqueous systems. It is a relatively inert, long-lasting anti-foam, formulated to give excellent performance over a wide range of process conditions. It is economical and safe to use. USDA approved.

FOOD GRADE GREASE ■ HIGH TEMP POLYMER GREASE

This product with PTFE is a high temperature, polymer grease, engineered specifically for the food processing and packaging industry. It is authorized by the USDA for use in federally inspected meat and poultry plants. It is compounded with EP and anti-wear additives as well as rust and oxidation inhibitors. It possesses good adhesion/cohesion properties and is water insoluble and resistant to water washout. USDA approved.

FOOD GRADE SILICONE AEROSOL ■ LUBRICANT AND RELEASE AGENT

Food Grade Silicone Aerosol was designed for use as a lubricant, release agent, water repellent, protective coating and polish. This dry silicone film is non-flammable, colorless, odorless, non-staining, waxless and heat-stable; unaffected by temperatures ranging from -40 F. to over 392 F. Use on such equipment as ovens, freezers, conveyors, belts and chutes. Proper use of this product minimizes cleanup time, speeds equipment disassembly, stops sticking and binding, protects equipment and increases production.

FOOD PLANT DEGREASER ■ ALL SURFACE CLEANER

This non-butyl, heavy-duty cleaner contains special properties allowing for deep penetrating and emulsifying action. These ingredients suspend debris in solution so it is rinsed away rather than re-deposited on cleaned surfaces. Food Plant Degreaser dissolves grease and dirt by positive emulsion; oils, dirt and greases are actually emulsified into the water resulting in more thorough cleaning.

FOOD PLANT DEGREASER CONCENTRATE ■ (2X6 = 55)

Food Plant Degreaser Concentrate was developed to save money and shipping costs for customers. A 55-gallon drum of Food Plant Degreaser contains surfactants, detergents and emulsifiers; it also contains 78% water. By removing this water from the formulation, 12 gallons (2 buckets) of active ingredients remain. These 2 super concentrated buckets, when mixed with 43 gallons of water, make a 55-gallon drum of regular strength Food Plant Degreaser, which should then be further diluted up to 20:1. USDA approved.

FOOD PROCESS CLEANER ■ CONCENTRATED DEGREASER

This product is a biodegradable, USDA approved degreaser specially formulated for use in the food processing industry. It is excellent for cleaning grease, smoke stains, and soot from food processing and wrapping equipment. Removes soil and grime from walls and floors of loading and receiving areas. Use on stoves, hoods, ventilating and filtering equipment and fixtures. Food Process Cleaner is very concentrated and can be diluted up to 20:1 with water for greater economy. USDA approved.

FREEZER CLEANER ■ SUB-FREEZING TEMPERATURES

Freezer Cleaner is designed to clean refrigerated and freezing areas; specifically, areas that do not allow conventional water-based cleaners to function. Because of its low freezing point and excellent solvency and detergency, Freezer Cleaner will clean food, soil, and greases in all low-temperature areas. Use for frozen food lockers, meat, produce, and frozen displays. Very good for cleaning floors and walls. USDA approved.

GRANULAR ODOR CONTROL ■ GARBAGE DUMPSTERS

Granular Odor Control contains exclusive Metazine odor-destroying additive. This powerful product is formulated to handle even the toughest odors from restaurant, institutional, commercial and municipal waste. This product offers an effective solution to odor problems from trash containers, garbage dumpsters and compactors. USDA approved.

GREASE TRAP SOLVENT ■ ELIMINATES ODOR AND GREASE

Grease Trap Solvent is a powerful and efficient emulsifying agent designed for liquefying animal fats, garbage grease, grease traps and drain lines for maximum performance. This product maintains these facilities in good operating condition, eliminating odors, overflowing, and unsanitary conditions resulting from poor drainage caused by slime and grease. Non-caustic, harmless to plumbing. Use Grease Trap Solvent for an excellent cleaner and deodorizer for garbage cans, storage areas, and refuse trucks. USDA approved.

HARD SURFACE 40 AEROSOL ■ ALL-WEATHER FORMULA

Hard Surface 40 Aerosol is a superb all-weather surface and glass cleaner. It is formulated with the same ingredients as a powerful degreaser, yet its penetrating foam is safe to use on windows, counter tops, furniture, tile, marble, porcelain, and car/truck windshields.

HEAVY DUTY CLEANER ■ SUPER CONCENTRATED

Heavy Duty Cleaner represents the latest technology in concentrated heavy duty cleaning liquids. This fast acting formulation quickly penetrates and emulsifies the toughest industrial and institutional soils. This product is ideally suited for cleaning a wide variety of soil types from most hard durable surfaces without leaving any sticky, filmy residue. Heavy Duty Cleaner is a great choice for use with pressure washers, steam cleaners, floor scrubbers and manual mopping operations.

HEAVY DUTY POWDER ■ LOW-FOAM DETERGENT

An excellent CIP, hot vat, boil-out and bottle wash product for canneries, dairies, bakeries, wineries, institutional kitchens, breweries, supermarkets, restaurants and food processing plants. For use on ferrous metals only. DO NOT use on galvanized metals, aluminum, or other alkali-sensitive surfaces. USDA approved.

ICE MACHINE DESCALER ■ DISSOLVES WATER DEPOSITS

Ice Machine Descaler is a liquid product that cleans and dissolves water scale deposits in ice machines, simplifying the cleaning process. Spray on, allow for minimal contact time, and easily flush water deposits away. This product has been recommended by manufacturers for use on Scotsman, Minitowoe, Sunbeam, Vogt, Howe and other ice-making machines. USDA APPROVED.

ICE MELTER ■ GENERATES EXOTHERMIC HEAT

This product has over 24 times the melting power of rock salt at 0° F. Tests, conducted at 100% relative humidity and 0° F, showed this product melted an average of 205 grams of ice in just 15 minutes, compared to an average of 8.7 grams melted by rock salt. Ice Melter has 24 times more melting power than rock salt and is effective at melting ice down to -57° F. This product is completely harmless to grass, shrubs, trees, animals and rubber tires. It will not pit or discolor concrete walks or asphalt.

INSTITUTIONAL BLEACH 6% ■ 6% CHLORINE BLEACH

This product is a stabilized is a stabilized liquid Chlorine bleach designed for institutional use.

KITCHEN DEGREASER ■ INDUSTRIAL STRENGTH

This product is a heavy-duty, water-soluble degreaser. It is safe and effective on all washable surfaces for removing soils such as carbon, creosote, dyes, grease, ink, mildew, oil and wax. This formulation also contains a rust inhibitor to retard corrosion of metals. Fireproof, acid-free and gives off no dangerous fumes. Kitchen Degreaser is very concentrated and can be diluted up to 20:1 with water for greater economy. An excellent all-around cleaner for restaurants, food service areas and processing plants. USDA approved.

LEMON ZEST ■ NEUTRAL CLEANER

This product is a highly active concentrate neutral pH cleaner that is extremely effective on most high-gloss floor finishes and is considered to be safe for normal usage. Recommended for used on sealed wood floors.

LIFT STATION MAINTAINER ■ FLOATS ON TOP

This highly specialized product is a fast breaking, emulsification system containing degreasing and detergent properties to clean the vertical surfaces of lift stations, wet wells, and similar treatment facilities. Add Lift Station Maintainer, in its concentrated form, directly to wet wells for effortless cleaning. As the water fluctuates, the cleaner removes the debris from the sides of the wet well. A secondary property of this unique citrus product is its ability to 'seal' or contain offensive odors that emit from the lift station.

LIQUID HAND SOAP ■ PLEASANT FRAGRANCE

This product is formulated with 100% natural ingredients and scrubbing agents that will not dry out or crack skin. Special emulsifiers quickly cut through the ground-in dirt and grime and hold them in suspension until rinsed with water. Leaves hands soft and supple.

LIQUID LIVE BACTERIA ■ INSTANT ODOR CONTROL

Liquid Live Bacteria, convenient liquid form of living bacterial suspension, promotes the decomposition of organic matter, grease, fats, carbohydrates, and sewer wastes without the use of harmful acids, alkalis or solvents. This product is recommended for use in drain lines, grease traps, bathrooms, urinals and septic tanks. Use Liquid Live Bacteria as a regular maintenance product to keep waste matter in a free flowing liquid and to reduce the occurrence of odors. USDA approved.

MILKSTONE REMOVER ■ DAIRIES AND FOOD PROCESSING

This low-foaming acid cleaner rapidly removes milkstone and other mineral deposits commonly found on stainless steel equipment in dairies and food processing plants. This free-rinsing product produces no hazardous or corrosive fumes either in concentrated or diluted form. Milkstone Remover may be diluted with up to 100 parts of water, depending on specific applications. USDA authorized acid cleaner.

OVEN AND GRILL CLEANER (PINK FURY) ■ REMOVES BAKED ON FOOD

This product was developed to clean and degrease areas where food is prepared, consumed or handled. Oven Cleaner is non-flammable, biodegradable, non-corrosive and non-toxic in diluted form. It contains a special rust inhibitor for protection of iron and steel. Oven Cleaner removes all soil types, by chemically emulsifying and dissolving grease, grime, carbon and dirt. This product is unique because it will remove carbon, grease, grime, dirt, candy and coffee stains, fruit and food stains, liquor, lipstick, milk, oil, rust, soap scum, syrup, tea, tobacco, wine, etc. USDA approved.

OVEN CLEANER ■ REMOVES BAKED ON GREASE

This product was developed to clean and degrease areas where food is prepared, consumed or handled. Oven Cleaner is non-flammable, biodegradable, non-corrosive and non-toxic in diluted form. It contains a special rust inhibitor for protection of iron and steel. Oven Cleaner removes all soil types, by chemically emulsifying and dissolving grease, grime, carbon and dirt. This product is unique because it will remove carbon, grease, grime, dirt, candy and coffee stains, fruit and food stains, liquor, lipstick, milk, oil, rust, soap scum, syrup, tea, tobacco, wine, etc. USDA approved.

OVEN CLEANER AEROSOL ■ HEAVY-DUTY FORMULA

Oven Cleaner Aerosol's heavy-duty formula cleans fast and effectively in both warm and cold ovens. Works equally well on pots, pans, french fry baskets, rotisseries, outdoor grills, and cleans stainless steel to a bright new luster. This aerosol is convenient, easy to use and excellent for quick cleanup in all restaurants and other areas where food is prepared.

OVEN CLEANER AGGRESSION ■ HEAVY-DUTY OVEN CLEANER

This product was developed to clean and degrease areas where food is prepared, consumed or handled. Oven Cleaner is non-flammable, biodegradable, non-corrosive and non-toxic in diluted form. It contains a special rust inhibitor for protection of iron and steel. Oven Cleaner removes all soil types, by chemically emulsifying and dissolving grease, grime, carbon and dirt. This product is unique because it will remove carbon, grease, grime, dirt, candy and coffee stains, fruit and food stains, liquor, lipstick, milk, oil, rust, soap scum, syrup, tea, tobacco, wine, etc. USDA approved.

RESIDUAL INSECTICIDE AEROSOL ■ CHERRY FRAGRANCE

Residual Insecticide is the most effective method of controlling infestations of ants, brown dog ticks, fleas, carpet beetles, chiggers, crickets, flying moths, mosquitoes, roaches, silverfish, spiders and other resistant insects. The exclusive dual action nozzle permits the choice of a broad spray pattern for baseboard use plus a narrow stream for crack and crevice treatment. The residual killing action continues for weeks after original application. Pleasant cherry fragrance.

SANITIZING HAND GEL ■ MEETS OSHA STANDARDS

Sanitizing Hand Gel has been developed to meet OSHA standards for bloodborne pathogens. It is used to sanitize between hand washings in areas where blood contamination is possible such as hospitals, nursing homes, care centers, emergency rooms, ambulances, police vehicles, jails, etc. It is also recommended to be used in all food processing and food service areas such as packing plants, dairy farmers, restaurants, etc. USDA approved.

SMOKEHOUSE CLEANER ■ HIGH FOAMING LIQUID

This is a heavy-duty, self-foaming cleaner formulated to clean smokehouse surfaces without the need to add a foam booster. It is composed of caustic detergents, water softening agents, soil suspending ingredients and foam stabilizers. Smokehouse Cleaner rapidly removes heavy accumulations of grease, oils and carbonized soils from all smokehouse surfaces. Its foaming ability allows product to cling for effective contact time. USDA approved.

STAINLESS POLISH AEROSOL ■ LEAVES A BRILLIANT SHINE

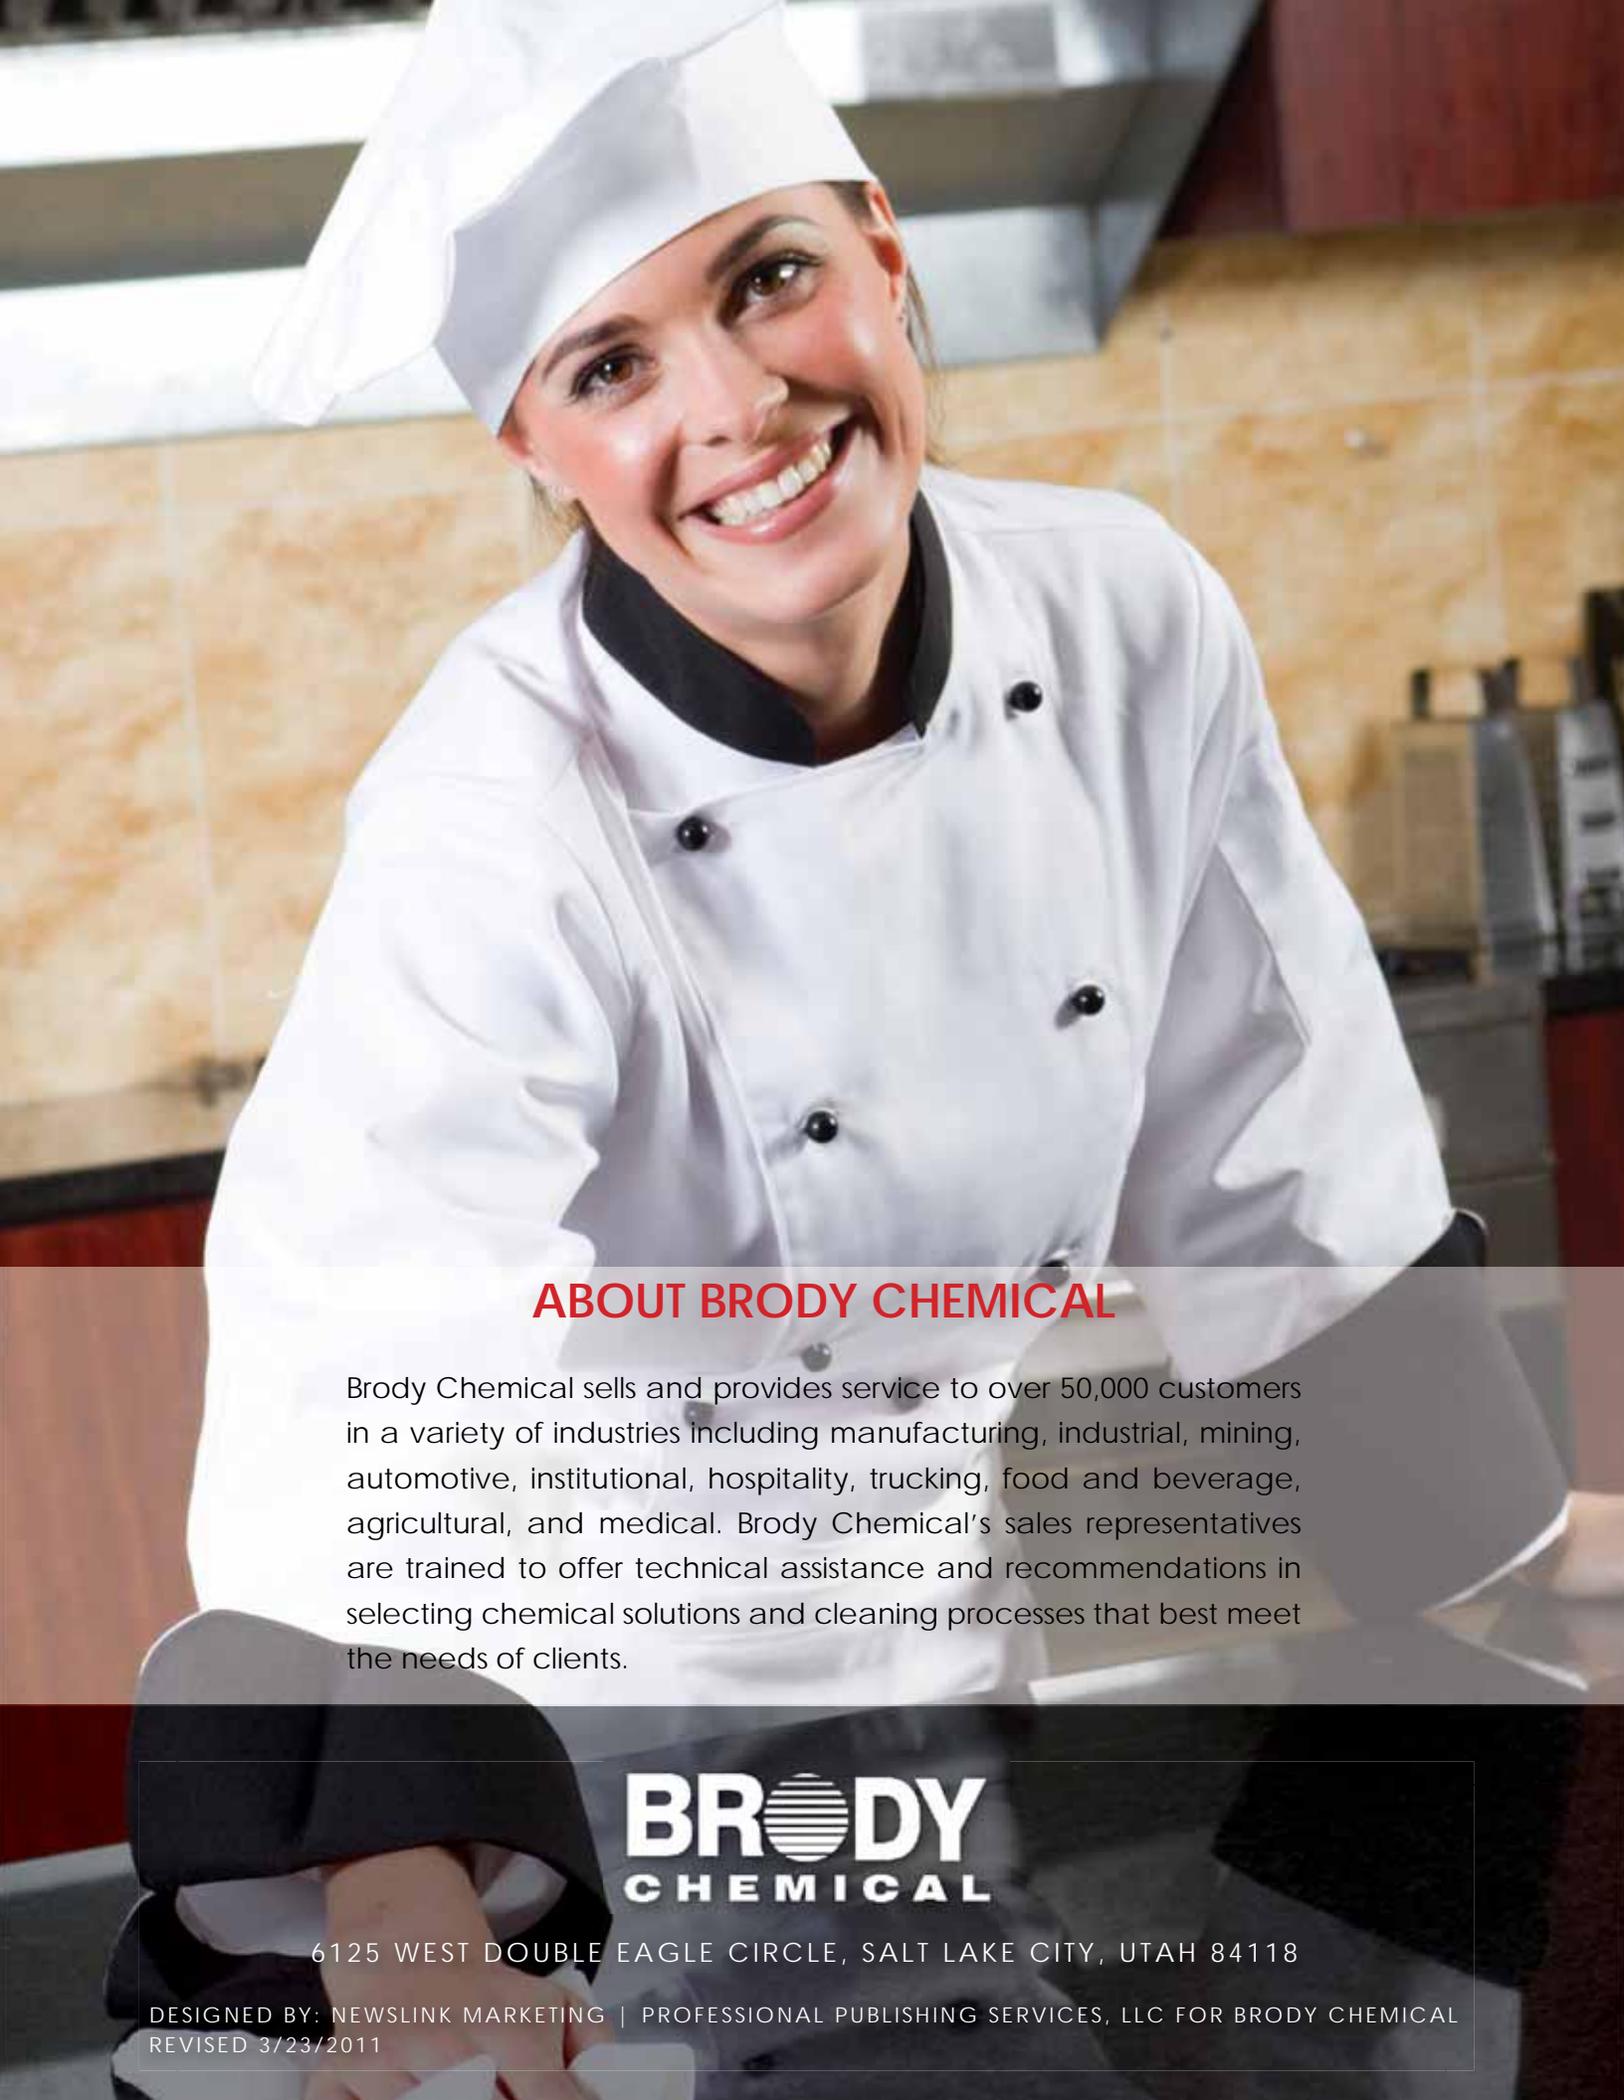

Stainless Polish Aerosol has been formulated to clean and polish all types of stainless steel without leaving a greasy film. This convenient aerosol produces light foam that clings to vertical surfaces, soaks and penetrates dirt, grease, fingerprints, etc. With minimum wiping, the stainless steel surface will have a brilliant shine. Stainless Polish is an excellent product for all stainless steel in food service areas. USDA approved.
